In 2020, the world community will widely celebrate an important historical date - the 75th anniversary of the Great Victory in World War II. This is a holiday and, of course, obliging to remember and honor the generation and feat of the war veterans. The celebration under the banner of the 75th anniversary of the Victory in the war at a high level was mentioned by the president of our country, Shavkat Mirziyoyev, in his message to the Oliy Majlis. In this war, our grandfathers and grandfathers, Uzbeks, Azerbaijanis, Cossacks, Russians, Belarusians, people of other nationalities, fought side by side and valued their lives, won the Victory. Retrospect is also invaluable. In the periodicals of Uzbekistan of those years, a huge amount of evidence of this has been preserved. We remember all those who gave their lives on the battlefields and those who selflessly worked in the rear.

During the war, the representatives of almost 70 nationalities of the USSR and many European nations took part in the partisan movement in Belarus. Uzbek land sent their best sons to the flames of war. The title of Hero of the Soviet Union was awarded to 338 immigrants from Uzbekistan, 53 soldiers became full holders of the Order of Glory. The people of Uzbekistan saved from hunger and death, more than 1.5 million people were evacuated here, among them more than 300 thousand orphaned children of different nationalities taken out of the besieged Leningrad, Belarus, Poland and Ukraine. This land has become a second home for hundreds of thousands of people.

Front-line newspapers also wrote about heroes of all nationalities of the former USSR who fought, died on the battlefields and in the rear. At that time, 200 newspapers were published in Uzbekistan, of which 124 were in Uzbek. These periodicals published daily news, photo reports and articles on the friendly relations of our republics in the battlefields.

World War II - was a war of motors. For this, oil was needed. During the war, Azerbaijani oil workers produced up to 80% of the fuel of the whole country. Marshal of the Soviet Union Konstantin Rokossovsky gratefully noted: In every battle strike by the fearless falcons, in every raid of Soviet tankmen, in every victory over Nazi forces, a large share of the success belongs to the Baku oil workers. It was Azerbaijani oil that became one of the decisive factors for victory in the Great Patriotic War. Homeland is proud of such brave, brave and valiant sons of the Fatherland. The memory of their exploits lives on in hearts today. May 9 is a sacred date for all countries of our Earth. Victory Day is our common history, our common spiritual and moral heritage.

After our states gained independence on October 2, 1995, diplomatic relations were established. The Embassy of the Republic of Azerbaijan in the Republic of Uzbekistan began its activities in 1996. The Embassy of the Republic of Uzbekistan in the Azerbaijan Republic began work in May 1998.

Azerbaijan and Uzbekistan have very old ties. Since ancient times, scientists and poets corresponded with each other, maintained friendly relations and, in one way or another, influenced each other. In particular, the great Azerbaijani poet Fizuli is considered a student of Navoi. To summarize, we can say, We are two fraternal people, two monolingual peoples. Naturally, our humanitarian ties continue and develop from ancient times to the present day.

## YENİYETMƏLİK DÖVRÜNDƏ YAŞ BÖHRANINA TƏSİR EDƏN FAKTORLARIN ÜMUMİ XARAKTERİSTİKASI

Böhran-insanın öz daxili aləmi və ətraf mühitə narazılığından doğan uzunmüddətli ruhi vəziyyətidir və o insan üçün ən fundamental, həyat üçün əhmiyyətli olan dəyərlərə və tələbatlar sferasına təsir edir, güclü emosional həyəcanla müşayiət olunur və insanın daxili həyatında dominantlıq edir. Yaş böhranları qrupuna daxil olan yeniyetməlik böhranı – psixologiyada müxtəlif formada tərifi verilən mürəkkəb hadisədir. Yeniyetməlik yaşının ziddiyyətlərinə tədqiqatçılar tərəfindən göstərilən diqqətin ümumi fonunda yeniyetməlik dövrünün obyektiv böhran təzahürünün mövcudluğuna vahid yanaşmanın mövcud olmaması kimi, yeniyetməlik böhranının da vahid nəzəriyyəsi mövcud deyil. Normativ yaş böhranı problemi onun birmənalı olmadığı və verifikasiyasının mürəkkəbliyi səbəbindən son zamanlar tədqiqatçılar tərəfindən nəzərdən keçirilmir. Yeniyetməlik dövrünün inkişafının yaş tendensiyaları fizioloji səviyyədə orqanizmin yenidənqurulması və psixikanın prinsipial, keyfiyyət baxımından dəyişiklikləri ilə bağlı olan yeniyetməlik dövründən əvvəlki böhran zəminində yaranır.

Yeniyetməlik böhranının məzmuna müxtəlif nəzəri yanaşmaların təhlili ehtimal etməyə imkan verir ki, ümumi, qlobal məsələ inkişafın şəxsi istiqamətinin axtarışı və gələcək fərdi obrazın müəyyən olunmasıdır: Mən kiməm və Mən hara gedirəm? Bu gələcək məktəbəqədər uşaq və kiçik yaşlı məktəbli üçün kifayət gədər dəqiq və praqmatik təsfir olunub, lakin yeniyetmə üçün bu gələcək çoxvariantlı və çətin müəyyən olunan olur.
